Roadmap of Integration of Myanmar's Climate Change

Vision: " Myanmar is ready to build climate resilient and low-carbon future towards inclusive sustainable development"

GOAL

By 2030, Myanmar is achieving climate resilience and is engaged in low-carbon, resource efficient & inclusive development as a contribution to sustainable development

STRATEGIC OBJECTIVES

Increase adaptive capacity and resilience of communities and sectors

Maximise opportunities for low carbon development in potential sectors

FOCUS AREAS (KEY ENTRY POINTS)

Agriculture and Food Security

Environment, and Natural Resources

Energy, Transport, and Industry

Urban, Building and Human Settlements

DRR, Health and Early Warning Systems

Education, Awareness, Science and Technology

STRATEGIC PRIORITIES

Integrating Climate Change

Policy, Legislation, Planning,

Institutional Arrangements

Coordination Mechanisms, Human Skills, Implementation, Monitoring and

Financial Mechanisms

Fund management, Financial instruments

Access to technology

Access to environmentally sound technology for adaptation and

Awareness, and Capacity

Capacity, Education and awareness, Research data & innovation

Multi-stakeholder Partnerships

Public, (including CSOs) private partnership; Joint implementation; International

Sector-wise Stakeholders Consultation

Urban, Building & Human Settlements

Energy, Transport & Industry Sector

DRR & Early Warning Systems Sector

National & Sub-National Consultation Workshop In Regions and States

NAP process initiatives

➤ With the Financial assistance by the Ministry of Foreign Affairs of the Government of **Finland**, Technical assistance by SEI, and UNEP as an implementing agency, **Stock taking analysis for NAP process** was conducted from September 2015;

- ✓ To identify current information on Climate change Impacts, **Risk, Vulnerability & Adaptation** as well as Gaps and Barriers
- ✓ **Roadmap** for preparing the development of NAP process

Time Frame	Activities
Medium term (2017-2018)	<ul style="list-style-type: none"> <input type="checkbox"/> Continue capacity building for NAP using tools and guidelines. <input type="checkbox"/> Continue capacity building for integration/mainstreaming needs through a few joint pilot projects to test and activate integration. <input type="checkbox"/> Continue capacity building for technical assessments. <input type="checkbox"/> Begin integrating climate change adaptation with development planning at various levels, and DRR management. <input type="checkbox"/> Begin the NAP process using existing tools and guidelines. <input type="checkbox"/> Begin integrating climate change adaptation with development planning at various levels, and DRR management.
Long term (2018 onwards)	<ul style="list-style-type: none"> <input type="checkbox"/> Implementation of adaptation projects. <input type="checkbox"/> Continued integration and mainstreaming efforts.

The progress of NAP initiatives

- Conducted **Stocktaking analysis for NAP process** with technical support of SEI in cooperation with UNEP
- Developed a stocktaking **report and Roadmap and enhanced understanding** including the review, analysis, and validation of relevant policies and legal framework, institutional mechanisms, capacity and technology needs, data systems and information, and barriers to policy mainstreaming
- Covered **the Key Activities and the Expected Outputs** and Outcomes, Risk Analysis, Work Plan and Conclusions and Recommendations
- Provided **a clear and progressive strategic action plan** to address capacity, institutional, and data information gaps and other relevant cross-cutting issues.
- **Improved constructive policy dialogues** between relevant climate change stakeholders for the formulation of more effective national policy and strategy to address long-term adaptation challenges.

Thank You
