

Session 1-4:

Breakout group discussion on
mainstreaming adaptation into development
plans and ensuring national budget and
international funding sources

Guiding Questions

- How are governments incorporating climate risk into development plans and budgets?
- How and from whom are budgets for adaptation plans/projects collected (e.g. national budget, fund from international organizations and private finance)? What were some of the difficulties in budgeting?
- How do the governments coordinate and manage national and international funding to advance NAP process?
- How should the national adaptation policy and development plan be aligned with international agreements such as Paris agreement, SDGs and Sendai Framework?
