

Male' Declaration Stakeholders Meeting

Nedup Tshering
National Environment Commission
Royal Government of Bhutan
11- 15 October 2005

Map of Bhutan

3. 11. 2000

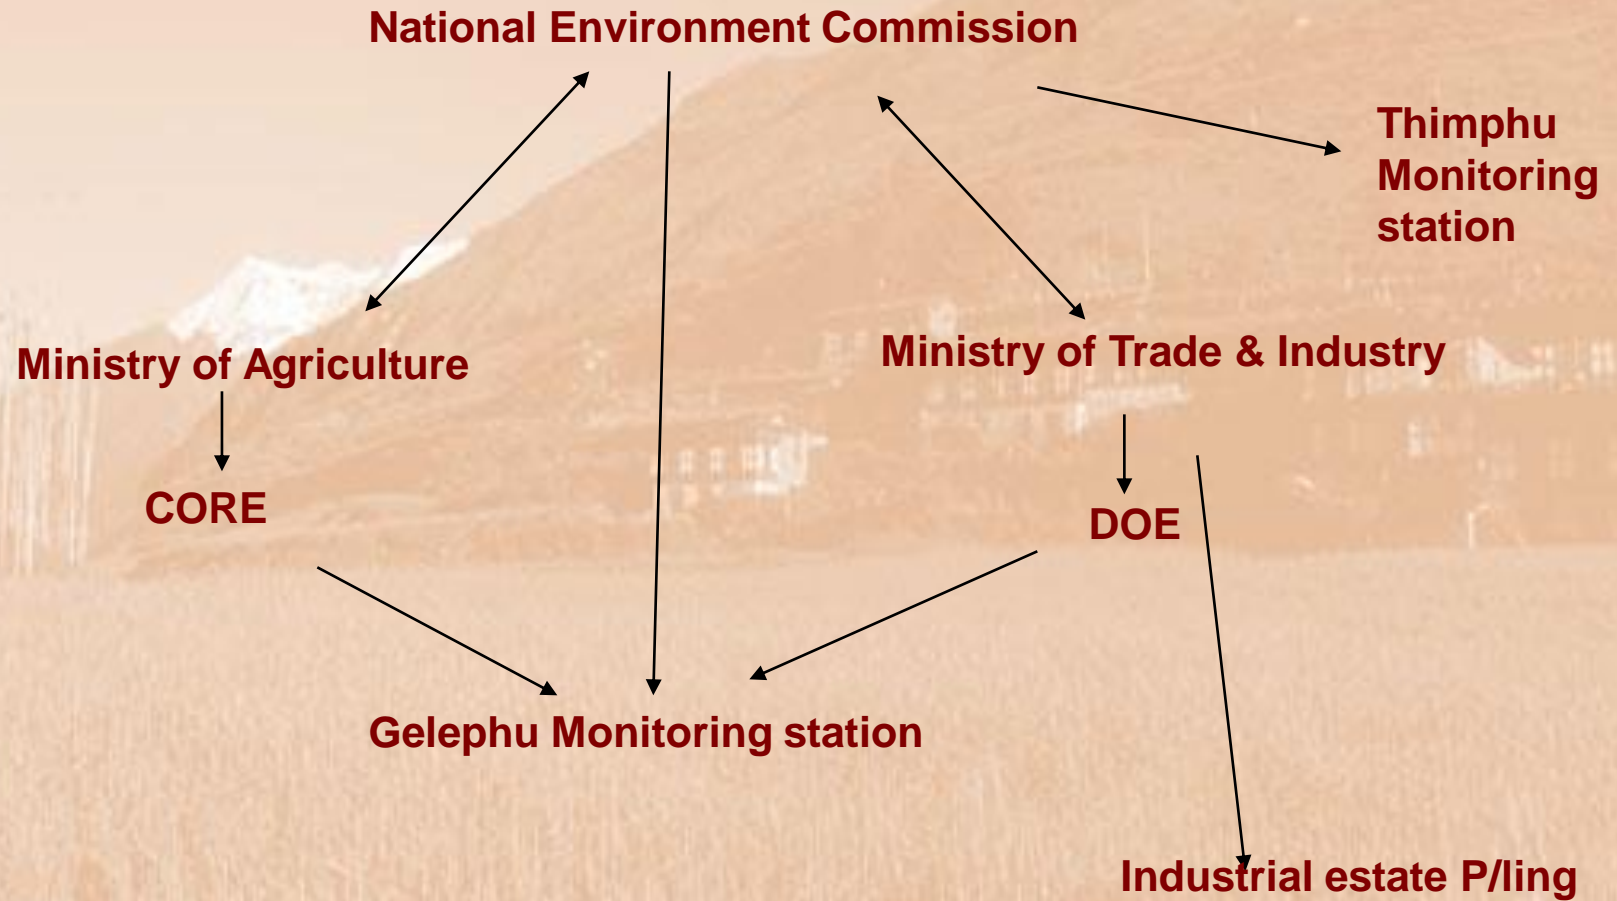

13 6 2003

PM10 sampling – this will soon be demolished within this month. Next location right now we don't know.

Challenges and Difficulties

- Challenge:
 - Human resources
 - Inter-ministerial coordination due to shift of present structure
 - Political turbulences
- Difficulties
 - Database Management
 - Human Resources – shortage of technical staff

Plan for next 3 years

- Institutional setup could probably changes due to the evolving of the present government system
 - Decentralization of responsibilities
 - Enforcement of proper data management
 - Improve or add/existing new monitoring station
 - Capacity buildings of technical staff and facility
 - Improve monitoring methods
 - Awareness to those affected

Awareness is more
important with and
amongst the
stakeholders particularly
the village people and
those unfortunate ones
