

**1st Announcement for the 2nd ABC-SLCP Symposium  
Tokyo, Japan, 21st-23rd July 2014**

An International Symposium for ABC (Atmospheric Brown Cloud) and SLCP (Short-Lived Climate Pollutant) will be held at the University of Tokyo, July 21-23, 2014. This is a follow-up to the 2013 ABC symposium held in Korea, September 2013. The symposium will cover the scientific findings of UNEP project ABC as well as observation, modeling and health impact of SLCPs. The seminar will also provide an opportunity for strategic discussions to promote cohesion among various air pollution related projects in Asia and the Pacific such as ABC, CCAC, and S-12.

- Abstract and registration due: 25 April 2014  
Send the following information to Haruo Tsuruta (haru2004@aori.u-tokyo.ac.jp)
  - Half page abstract with request of oral, poster, or no presentation (no abstract)
